I am writing to say that I support the instant wheather and traffic, I rely on this station to get me through large cities to avoid major delay. I also support all other stations on xm to make my day on the road a little easier with the ongoing music, comedy channels and talk shows (such as Bubba the Love Spounge (aka Bubba Clim) who is no longer on the air). Hopefully we can have Bubba and Howard Stern on satillite radio in the near future. Thank you for taking time to consider my thoughts and supprot for satillite radio. Timothy Palestine, Texas
